vod governor of the central bank, for the benefit of the state, by law 18,
(2) the central bank, according to the law of 2006, regarding the central
bank, and the monetary policies of the central bank.

The central bank was established in 2018, and its functions are to make
monetary policies that are consistent with the interests of the state.

The central bank's functions include:
1. Establishing and implementing monetary policies that are consistent
with the interests of the state.
2. Handling the national currency and its circulation.
3. Regulating the banking system and financial institutions.
4. Providing financial services.
5. Conducting research and analysis on economic and financial matters.
7. Supervising financial institutions.
8. Protecting the financial interests of the state and its citizens.
9. Coordinating with other financial authorities.
10. Conducting public awareness campaigns on financial matters.

The central bank has the authority to take action in the following areas:

11. Establishing and implementing monetary policies that are consistent
with the interests of the state.
12. Handling the national currency and its circulation.
13. Regulating the banking system and financial institutions.
14. Providing financial services.
15. Conducting research and analysis on economic and financial matters.
17. Supervising financial institutions.
18. Protecting the financial interests of the state and its citizens.
19. Coordinating with other financial authorities.
20. Conducting public awareness campaigns on financial matters.

The central bank's functions are to make monetary policies that are
consistent with the interests of the state, and to maintain the stability
of the financial system.
